McGuffey's Eclectic School Books.

The attention of teachers and friends of Education in Indiana is especially directed to the numerous school books. It is believed that no other books are better suited to the schools and academies of the west than any other similar series of books.

One of the best evidences of this is to be found in the numerous popularly written books having been sold and rapidly crept into use.

The publishers are happy to state that many books received from all the leading publishers of the country have been adopted.

The following recommendation which has been received from the publishers of some of the most eminent authors of the day, will give the reader a clear idea of the value of these books.

The inland postage on all letters or papers for Foreign Countries must be pre-paid; otherwise they cannot be forwarded.
